## TO ALICE.

Two years ago we were united  
 In heart, with love so pure,  
 With hope so bright, but now 'tis dimmed,  
 As low as my heart's pain could be.

God in his love gave me the art—  
 Her soul pure, so gentle, so fair,  
 My mortal while I lived, help me to see,  
 Of the world, its sins, and its care.

My heart is soiled with its longing and waiting  
 For her step I will never, never leave,  
 For the smile that was always in my coming:  
 It was my life, my joy most dear.

It was God who gave, and the same hand  
 But in my sorrow, a help will be,  
 Too he chiding, my faith is not shaken—  
 Father, if for me, help me to see.

O Alice, my darling, I'll meet thee in heaven,  
 If thou dost, my darling, I'll meet thee in heaven,  
 Then to-morrow the prize is given  
 To him who died for me and my love.

## Editor Herald:

The feeling among Democratic Congressmen to which I referred several weeks ago, that it is necessary to make some provision at this session for counting the electoral vote, has developed into a question of the most casual and desperate temper of the Republican leaders at this time is sufficient to convince the most innocent and candid Democrat that the height of political unscrupulousness will be reached when the matter was in the last contest, with the chances that under the direction of Cannon and Conkling, President of the Senate would assume to declare the result in his own way, and make a President to suit himself.

It is this, that is what the Radicals are out to do, before the election, to get fair and impartial, would be denounced by the Republicans as a partisan scheme to "seize the Presidency" and any bill passed that did not give the Republicans some advantage would be defeated by the fraud who sits in a seat to which another was elected. The thieves who have stolen the office once are "excellent" enough to do it again.

Under the circumstances the most available and unobjectionable course for the Democrats seems to be the re-enactment of the 32nd Joint Rule framed by the Republicans when they had both Houses of Congress, but hastily repealed by the Radical Senate when the Democrats came in possession of the House.

It is needless to say in the joint session of the two Houses, the appointment of tellers, to whom the certificates are handed when opened by the President of the Senate, and the raising of the vote of each House upon the acceptance of any vote to which there is objection. Under it both Houses must concur to count the vote of a State or elector.

Calhoun was visited by a destructive fire last Saturday, in which several of the business houses were destroyed by the flames, besides partial loss of the material of the Calhoun county News, which was removed last week from this place to Calhoun. The loss of the press and a part of the material will be sorely felt by Mrs. Cummins, but the citizens of Calhoun have announced their intention to stand by her in her enterprise.

Mr. E. S. There was more drunkenness in Hartford last week than we ever saw in the same length of time during a residence here of over sixteen years. The Town Marshal grabbed up a good many of them, in fact too many to give names and particulars. Some of them are known inmates, and although there is a law against selling such persons whisky, they manage some how to get it by proxy or otherwise.

We admire the pluck of a young lady who is brave enough to defend the rights allowed them every four years, and as 1880 is a privileged year, we take pleasure in announcing Miss M. (by request) as a candidate for matrimony, and feel that when she stands before you, and brings to bear her irresistible sweetness and gentle pleadings, you cannot be so heartless as to refuse your hearty support. Remember it takes but one vote to elect, she to act as judge of the election.

MRS. C. CUMMINS.

We have a letter from John Morgan Berry, of Beaver Dam, now in Benton, Miss. We make the following clipping: This is a beautiful country, all the flowers are now in bloom. I will leave for Kentucky soon. His letter was dated March 19th, 1880.

We call the attention of our readers to the handsome advertisement of the McHenry Coal Company's Store. They have just received an elegant new stock of goods, and like sensible, liberal business men, they desire to make it known through the proper channel, the local paper.

For the past few days the town has been flooded with counterfeit nickels, and it is strongly believed by some that they are being made in town. The work is so well executed that it is not at all difficult to pass them upon unsuspecting persons. Everybody is on the alert, and the counterfeiters will be caught up with sooner or later.

V. B. Morton, of Corralvo, procured letters patent for an invention to prevent shoes or boots from creeling over or running down at the heel. He is impressed that it will be a success, is cheap and answers the purpose effectually. We wish him success in the enterprise commensurate with the merit of the invention.

In our candidates' column appears today the announcement of Mr. R. P. Rowe as a candidate for the office of Sheriff of Ohio county. This is the second time that Mr. R. P. Rowe has appeared before the people for this office, being the opponent of Mr. C. W. Phillips in 1878, and made a good record, and would no doubt have made a good and efficient officer if elected. As he is already well known throughout the county, we predict it will take a strong man to beat him.

Andrew Mercer, a miner in the Emporia mines was killed last Thursday by being caught under the falling coal of a blast. He had made the blast the day before, but as the coal did not fall he was loosening it up with his pick when about two tons gave way and caught him in the fall. He killed him instantly, and mangled him fearfully. He was a brother of the Mercer Bros., proprietors of the Emporia mines, which are located about half way between Beaver Dam and McHenry.

John Williams, near Rockport, went out last week during the high water to cut a tree for saw-logs. The water was some fifteen or twenty feet. He went in a canoe with an ax, saw, dimmer and all necessary articles. He missed his calculations, the tree falling the wrong way, across the canoe, sinking it, carrying Williams about ten feet under the water. He got out, but lost everything else, including the canoe. He can get the saw, ax, &c., after the water recedes, should it ever conclude to do so.

It seems that the flats just on the south edge of town has been selected by the town, or at least by some of its citizens, as the place of deposit for all the dead carcasses that are donated to the subsistence of Mr. R. M. Walker, whose first name is Turkey. The remains of two quadrupeds of the genus "Equus" were hauled and left on this bone-yard last week, in a short distance of several families living in that end of town. During spring, summer and autumn the air when in motion at all, is generally stirred by the gentle zephyrs from the sunny southland and comes to the town from the very direction of this field of putrid carcasses. The soft, balmy breezes are thus laden with the foulest effluvia, and to those families on that side of town the nauseating odor is intolerable. We know of no reason why the citizens of that part of town should be compelled to act as the smelling committee for the whole town, and in their behalf and as one of them, we say we will not longer be thus imposed upon. It is unpleasant to us and unhealthy to the whole town, and the next person depositing a carcass there will have the law enforced against him, and if he cannot be reached in this way we'll organize and have the carcass hauled back to the place from whence it was brought. We wish it distinctly understood our end of town will not longer submit to this outrage.

The departure of Miss Laey Gray today for her home in Shelbyville creates a vacuum in the social circles of Hartford and occasions regrets from a large number of admirers. Her pure innocence is an admirable feature, and her wit and intellect sparkles in the highest literary circles as would a diamond among pearls. Her many friends will at any time be glad to welcome her back.

PROOF POSITIVE.

"What everybody says must be true," therefore it is proof positive that Kendall's Spavin Cure will cure spavins, splints, curbs and all unnatural enlargements and will remove the lumpy swelling without blistering. Read their advertisement, for the remedy is having an unprecedented sale which is entirely on its merits. It is now sold by nearly if not all druggists. Remember the name is Kendall's Spavin Cure.

Calhoun's New Paper.

The Ohio County News office was removed from this place to Calhoun last week, where Mrs. Cummins will engage in the publication of a new paper, devoted to the interest of McLean county. Mrs. Cummins is a lady of energy and business tact, and if the citizens of Calhoun and McLean county will stand by her she will give them a new, first-class local paper. She will be assisted editorially by Judge W. H. Cummins, of this place, a gentleman well posted in politics, and a polished writer. We wish Mrs. Cummins a grand success.

OLD LEX.

The premium saddle stallion, Lexington, will stand the present season at my stable, 2 1/2 miles north of Hartford, Ky., on the Havesville road, near its junction with the Owensboro road. Also the well known Jack, Maximilian, at same stable. Both in fine fix for service. I will give a premium of \$10 to the 1st and 2nd best colts of the year, foaled in 1880, divided as follows: \$7 to the 1st and \$3 to the 2nd best colts to be shown at the Hartford fair this fall (1880). Failing to announce this through my bills last Spring I now make this announcement so that those who patronized the above animals last year may have equal chances in competing.

Eighteen Years in Prison.

Some few years ago, on Spur creek, in this county, in getting out timbers for the Spur creek mill, a tree frog was found imbedded in a cavity of an oak tree. The cavity was about ten inches long, 1 1/2 inches deep and about an inch wide. The frog had worked back and forth until the cavity was worn slick. An examination of the timber showed a growth of eighteen years over the cavity. The truth of this can be verified by many of the best men in the Cool Spring neighborhood.

Strange But True.

Last fall, I year ago, Jas. L. Miller, Esq., of Bartlett's precinct, had some hands engaged in cutting timber in the bottoms of Rough creek, about 150 yards from the creek. It was very dry weather and the little streams were all dry, and Rough creek very low. An oak tree cut by them fell against a maple and uprooted it, making a hole some three feet deep. After a short time water rose in the hole, and one of the men noticed that the water was being agitated. He was curious to know what agitated it, and upon examination a mud cat fish about four inches long was found. The fish had no eyes. Mr. Miller says this can be proven (if his word is doubted) by four or five reliable men.

The Wonderful Hat.

On last Saturday night, in company with the "gunde" wife, we made a visit to our neighbor and pastor, Rev. J. S. McDaniel. After a short and pleasant visit we returned home. We have never estimated ourself as the very worst sinner in the world, but whatever may have been our theory, in practice, we have not been a saint. On leaving the parsonage we began to feel divinely impressed, which feeling continued to increase. Arriving at home, we drew a chair before the fire, pulled our hat down over our eyes, and with elbow on knees, and face buried in hands, we sat in deep meditation for a long time, from which we were aroused by our companion who had long since retired and had aroused from a nap and reminded us it was almost midnight. We arose to retire, but was so deeply impressed with a religious fervor that we dropped on our knees and asked for the cure and protection of the "Great I AM" through the lonely hours of the night. When we awoke the next morning the religious fervor had somewhat subsided, and we began to tax our mental faculties to discover the reason for all this. While thus engaged our eyes happened to fall on the hat rack, and there hung a strange hat. After diligent inquiry we found it to be the pastor's hat, which by mistake we had worn home the night before. Then the mystery was explained. The hat from long use had become thoroughly charged with religious magnetism or electricity, and coming in contact with a head almost void of these feelings it acted like a powerful battery, and the moral, religious influences rushed into us like air into a vacuum. The good brother's hat was returned and our own secured, but we fear that we will never again be so deeply impressed religiously.

A Powerful Medicine.

A good old darkey hereabouts, known by the name of John Tinsley, has been, for some time past, in the employ of Thomas Bros. During the past winter he has been engaged most of the time driving their excellent span of mules. For some time the water has been too high to reach the coal banks. The back-water standing over the road, the immense amount of rain-fall for some weeks past together with the great amount of travel since the water has receded, coming to

Criminal Court and otherwise, had made the road desperately muddy. One day last week John went down to Brown's coal mine for a load of coal. As coal was scarce in town and John's faith in the mules great he put on a smashing load. When he struck the main road and reached one of those ugly mud-holes down went the wagon wheels almost to the axle and the mules stopped. In vain did John coax, whip and encourage them, it was no go. He was in a dilemma. The mules had never stalled before and he was afraid if his employers found out that he had overloaded and balked them he would be dismissed and his dependence for making the "ole 'oman an children" some bread and meat to eat would be gone. Just then a fine looking young doctor of this place, who has, for his short practice, obtained quite an enviable reputation, came riding by. John accosted the M. D. as follows: "Dr. W.—is you got any medicine along w'il you that will fetch all the power of a mule out'n him?" Desc here mules can pull out'n here today would just do they level best." Dr. W.—said he had no medicine taken internally that would answer but he had a remedy if applied externally would bring them out quick. John was delighted and said, "I allers knowe you's a smart un and I don't keer how it's piled so I'll fetch em out'n dar." Dr. W.—took out two small phials and filled them with turpentine, he gave one to John and simultaneously they applied a small quantity to each mule near where the caudal appendage adheres to the body. Did it fetch em out'n dar? Holy Moses! In less time than it takes to say Jack Robinson after you get your mouth open, those mules were disappearing from view at a turn in the road and the atmosphere was dark with the spatter of mud and scattering of coal. For a moment John was bewildered. He had never seen the like before. Quickly regaining his senses he turned to the doctor and said, "That medicine of yours is nifty pow'ful, its worse'n that steam engine I seed on the rail road pull'n a locomotive and a train of keers. Is it very 'sensitive'?" So said the doctor to any other cheap, coal. Well then said John, as he hastily shed his linen, give me a dose the same way quick, an' er big un too, for I've bound to ketch up with them ar fete taked mules.

Since our announcement two weeks ago of Gross Williams' loss of \$101, being burned to a crisp in his stove, the remnants of the bill have been forwarded to Washington, and he yesterday received a check for the full amount of his loss. The check was such an agreeable surprise, and Gross was so much elated over its receipt, that he went forthwith and donated \$5 to the Hartford Sabbath School and offered up a prayer in behalf of the Washington officials.

DR. J. F. HAYWOOD, of New York, vouches for its efficacy.

READ WHAT HE SAYS: New York, Sept. 15, 1877.

Dear Sir:—During this year I used a number of bottles of your Expectorant, and I can truly say that it is the most effective LUNG BRONCHITIS ever offered to sufferers from pulmonary diseases.

During a practice of twenty years, I have never known a medicine to act so promptly and with such happy effects. It instantly relieved the most violent fits of coughing, and invariably cured the disease in a few days. I therefore recommend it to all my friends. With great respect, O. J. W. WIGLE.
